*Secretary*

Joan L. San Juan, MD  
*Treasurer*

Romulo S. De Villa, MD  
*Board Member*

Jaime Z. Galvez-Tan, MD  
*Director*

PRIMA, Inc. is a SEC-registered non-stock, non-profit medical society committed to share advanced evidence-based medical information among medical practitioners and the general public on global good practices that can prevent illnesses associated with lifestyle habits and patterns; proactively avoid the development of genetically predisposed conditions through lifestyle modifications and promote regeneration of diseased tissues and organs through cellular and biochemical technology.

In line with this thrust, and closely following the phenomenal success of last year's congress, PRIMA will hold the Second Integrative Medicine Congress on the **29th to the 30th of September 2016** at the **Grand Ballroom of the City Club, Alhambra Makati Place**. Last year we highlighted the paradigm shift in the practice of medicine in the country from the disease-oriented, symptom-relieving concept to the more proactive and preventive approach. For this second congress we will focus on the application of the fast evolving medical technology in integrative medicine that gives us an edge not only in diagnostics but in evidence-based treatments as well. We are hoping to bring this year's attendees a glimpse of *predictive medicine* with the theme ***Back to the Future: Merging Age-Old Practice with Cutting-Edge Technology***.

### The 2nd Philippine Congress on Integrative Medicine for Optimal Health

	Topic	Speaker	Description
